CAHS - Biomedical Visualization	\$3,643	\$3,725	\$3,813	\$3,900	\$3,978	2.0%	\$78	\$7,956	Support for clinical faculty to teach highly specialized and technically advanced content courses. Will also support the hardware and software updates to keep up with the rapid technology advances in visualization methods.	Students in the BVIS program met with college representatives at the regularly scheduled Fall SAMA meeting on December 1st. In total 27 students attended. There was a discussion of the rate increase and how it would be used. All students in attendance found the increase to be acceptable.
CAHS - MS Occupational Therapy	\$2,134	\$2,134	\$2,230	\$2,275	\$2,309	1.5%	\$34	\$4,618	Direct program cost of clinical faculty with specialty content knowledge.	A meeting was held on 10/22/15. 12 students were invited, 4 attended. All were supportive of the increase, and said that this small increase would not prevent them from continuing their education at UIC. The students did ask that the department review all equipment, software, and supply purchases to make sure that these purchases are necessary and useful for student education.

CAHS - Occupational Therapy	n/a	n/a	7,879	8,050	8,050	0.0%	\$0	\$16,100	No rate increase for AY16-17	N/A
Dentistry - DDS / DMD	\$14,680	\$14,974	\$15,423	\$15,890	\$16,365	3.0%	\$475	\$32,730	Tuition supports tenured and tenure-track faculty salaries, student services for recruitment and retention (admissions, academic advising, counseling, etc.), supplemental education programs, mentoring programs and other services to support the student's academic and personal growth. Increase is tied to HEPI (2014).	The proposed tuition was discussed with students at mandatory class meetings with DMD students on 9/30/2015 (D2), 10/19/2015 (D1), 9/8/2015 (D4) and 9/16/2015 (D3). In addition it was discussed with Dental Student Leadership at a meetings on 9/17/2015 and 10/15/2015. Each of the meetings allowed the students to ask questions or make comments about the proposed tuition increase. There were no questions or comments regarding the possible tuition increase.
Dentistry - Advanced Cert Pgms in Endo, Ortho, Peri, and Prosthodontics	\$11,125	\$11,681	\$12,032	\$12,514	\$12,889	3.0%	\$375	\$25,778	Tenured and non-tenured faculty, post graduate faculty stipends, departmental staff responsible for administrating the program, college administrative staff and faculty and program development costs.	The proposed tuition increase was discussed with student representatives from the Advanced Certificate training programs on 10/14/2015. Each of the meetings allowed the students to ask questions or make comments about the proposed tuition increase. There were no questions or comments regarding the possible tuition increase.
Medicine - MD	\$17,000	\$17,000	\$17,721	\$17,721	\$18,164	2.5%	\$443	\$36,328	The two primary foci for investment of this year's tuition increment will be: 1) buying out clinical faculty time, to ensure the currency and clinical relevance of the basic science curriculum in the M1/M2 years, and to engage clinical faculty more formally in student education during the M3/M4 years; and 2) to provide staff support for faculty to transition their courses from traditional, lecture-based modes to more active learning and team-based learning modes. The latter will require instructional designers and educational technologists. More formal engagement of clinical faculty will also allow us to dedicate their efforts for personalized advising for students, which will include development of leadership skills in ways tailored to the individual student's career interests.	A presentation was made to the University Student Medical Council (the College-wide student government) Executive Committee and student body presidents from each of the four regional sites, and then to interested "at large" students in an open "town hall" style forum. In each of these meetings, the College provided information about peer tuition rates, the proposed rate increase, and the anticipated uses of the incremental revenue, all of which is also summarized in our proposal to the campus. While few of the students asserted that the rate was too low, most were comfortable with an increase in the 2-3% range.
Nursing - Doctor of Nursing Practice	n/a	n/a	\$10,852	\$11,125	\$11,125	2.5%	\$273	\$22,250	No rate increase for AY16-17	N/A

	CAHS - Doctor of Physical Therapy	\$7,616	\$7,730	\$7,885	\$8,050	\$8,292	3.0%	\$242	\$16,584	Program elements that will be funded by the tuition increase primarily include technology (i.e., curriculum management software packages), faculty and administrative staff. These additions significantly strengthen our educational excellence which is of clear value to the DPT students.	A survey was sent to our student body (~160 student, 92 responded). Given the responses, the proposed tuition increase would not appear to impact our ability to recruit high quality students. We will still remain at a very competitive price point compared to other schools.
